2019-20 School Profile Elementary School Metric and Term Definitions

Attendance

Attendance						
Student attendance rate	Average of students' attendance rates (number of days in attendance out of number of days enrolled). The target for elementary schools is 97%.					
Students absent fewer than 10% of days enrolled	An indicator of how many students are in regular attendance. Percentage of students with fewer than 10% absences (excused or unexcused) is based on a snapshot taken at the end of the fifth six-week grading period.					
Enrollment						
Number enrolled by grade (N)	Average daily enrollment at the campus during the school year.					
Percentage enrolled by grade (% Sch)	Grade-level percentage of total school enrollment.					
Percentage in grade by race/ethnicity (% of Grade)	Percentage of students within grade level identified as African American, Hispanic, white, or other. Identification in a category provided by parents/guardians at registration. Students identified as Hispanic are not counted elsewhere.					
Percentage enrolled by student group	Counts taken at the end of fifth six-week grading period based on data in student information system. Students may be classi in more than one or no student groups.					
Teachers						
Teacher absences	Average number of days not at campus, such as for illness or personal business. Counts do not include vacation days or leave.					
Teachers returning to campus						
Discipline						
Frequency of disciplinary actions	Disciplinary actions reported to TEA in PEIMS summer submission. Reporting codes by action are in-school suspensions: 6, 26; out-of-school suspensions: 5, 25; alternative placement: 7; explusion: 2, 4.					
Accountability Rating Syste	em for Texas Public Schools					
	Schools receive scaled scores in four domains (Student Achievement, Student Progress: Academic Growth, Student Progres Relative Performance, and Closing the Gaps) and a single scaled score across the three domains from the TEA. Dallas ISD o into the state's Local Accountability System, which adds domains to Dallas ISD schools' accountability ratings. The addition domains are Academics (measured by the school's prior-year SEI), Culture and Climate (measured with the staff climate su and parent/guardian survey), and Student Engagement (measured by a confidential student experience survey and extracurricular participation). As with state domains, each local domain receives a scaled score, and there is a single scaled score the three local domains. Scaled scores range to 100. The state scaled score and local scaled score are averaged to compute school's overall accountability score and grade. Based on the state domains only, schools can earn distinctions from the TE student achievement in math, reading, science, and social studies; top 25% (among comparable schools) in student progres.					
School Effectiveness Index						
SEI	A measure of performance on assessments that is relative to other Dallas ISD schools. The SEI isolates a school's effect on student outcomes by controlling for differences the school cannot control, such as socio-economic status, neighborhood characteristics, and prior-year academic levels. A large change in one year, whether up or down, will typically be followed by a move in the opposite direction. This is expected based on the statistical model used for SEI; it is an example of the concept of "regression to the mean."					
Campus Climate Survey						
Percentage positive responses	Surveys conducted November and May. Positive responses include Agree and Strongly Agree. Other responses included Disagree, Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results are repeated on each profile.					
Parent Survey						
Percentage positive responses	Survey conducted in spring. Positive responses include Agree and Strongly Agree. Other responses included Disagree, Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results are repeated on each profile.					
Istation's Indicators of Prog	gress (ISIP) and Texas Kindergarten Entry Assessment (TX-KEA)					
Percentage at or above the 40th percentile Kindergarten readiness as measured using beginning-of-year ISIP scores. Includes results from English and Spanish and Students scoring at or above the 40th percentile, based on ISIP's national normative sample, are considered to be kin ready. In Fall 2018, Dallas ISD transitioned to a new assessment, the Texas Kindergarten Entry Assessment, or TX-KEA determine kindergarten readiness. The TX-KEA assessment is used to determine whether a student has met specified developmental benchmarks and academic competencies as outlined by the Texas Pre-Kindergarten Guidelines and T Essential Knowledge and Skills. The results of the TX-KEA are used to identify a student as being on track for kindergart future profiles, only TX-KEA results will be available.						

2019-20 School Profile Elementary School Metric and Term Definitions

TerraNova/SUPERA	
Percentage at or above the 40th percentile	Percentage of students with scores at or above the 40th percentile using a national norm, meaning the score was at or above approximately 40 percent of all other scores in the U.S. Indicator of grade-level performance. TerraNova is an English-language assessement and SUPERA is the Spanish-language equivalent. The district administers the reading, language, and mathematics sections of these assessments to students in grades K-2; only the reading and mathematics are presented.
Percentage at or above the 80th percentile	Percentage of students with scores at or above the 80th percentile using a national norm, meaning the score was at or above approximately 80 percent of all other scores in the U.S. Indicator of advanced performance. Scores above the 80th percentile are a subset of scores above the 40th percentile.
State of Texas Assessment	of Academic Readiness (STAAR)
Percentage meeting grade level standard	Percentage of all tests with scores meeting grade level standard. Statistics include results from all STAAR test types. School's statistics based on results from students in the accountability subset. District and state statistics are based on grade levels at the campus. Students meeting grade level standard have a high likelihood of success in the next grade or course but may stil need some short-term, targeted acadmic intervention.
Percentage mastering grade level standard	Percentage of all tests with scores demonstrating mastery of grade level standard. Scores are a subset of scores that "meet grade level standard". Students mastering grade level standard are expected to succeed in the next grade or course with little or no academic intervention.
