Based on the state domains only, schools can earn distinctions from the TEA student achievement in math, reading, science, and social studies; top 25% (among comparable schools) in student progres 25% in closing performance gaps; and postsecondary readiness. School Effectiveness Index School Effectiveness Index A measure of performance on assessments that is relative to other Dallas ISD schools. The SEI isolates a school's effect on soutcomes by controlling for differences the school cannot control, such as socio-economic status, neighborhood characteric and prior-year academic levels. A large change in one year, whether up or down, will typically be followed by a move in the opposite direction. This is expected based on the statistical model used for SEI; it is an example of the concept of "regression the mean." Campus Climate Survey Percentage positive responses Surveys conducted November and May. Positive responses include Agree and Strongly Agree. Other responses included Dis Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results a repeated on each profile.	Accountability Rating Syst	em for Texas Public Schools

Other responses included Dissipation Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results a repeated on each profile. Parent Survey	State accountability rating	curricular participation). As with state domains, each local domain receives a scaled score, and there is a single scaled score across the three local domains. Scaled scores range to 100. The state scaled score and local scaled score are averaged to compute the school's overall accountability score and grade. Based on the state domains only, schools can earn distinctions from the TEA for student achievement in math, reading, science, and social studies; top 25% (among comparable schools) in student progress; top

2019-20 School Profile High School Metric and Term Definitions

State of Texas	Assessment of A	Cademic Re	andinass (CTAAD)
State of Texas A	Assessillelli ol A	rcadelliic ne	eaumess t	SIMANI

Percentage earning a qualified score on any exam (among AP enrollees)

Percentage meeting grade level standard	Percentage of all tests with scores meeting grade level standard. Statistics include results from all STAAR test types. School's statistics based on results from students in the accountability subset. District statistics are based on grade levels at the campus. State statistics not available for isolated grades, such as Grade 8 Algebra I. Students meeting grade level standard have a high likelihood of success in the next grade or course but may stil need some short-term, targeted acadmic intervention.
Percentage mastering grade level standard	Percentage of all tests with scores demonstrating mastery of grade level standard. Scores are a subset of scores that "meet grade level standard". Students mastering grade level standard are expected to succeed in the next grade or course with little or no academic intervention.
PSAT	
Percentage with college- ready scores	Percentage of grade 10 students with a college-ready score, determined by The College Board. The PSAT is administered to all district students in grade 10. College-ready scores are set only for section-level, not test-level, scores. The sections are "Evidence-based Reading and Writing" and "Mathematics." Thus, in this report, the percentage of students meeting the "EBRW" benchmark is duplicated on the "Reading" and "Writing" graphs.
Average score	Average score among grade 10 students. Range of scores is 8-38 on each subtest.
ACT/SAT	
Percentage with college- ready score(s)	In Dallas ISD, college-ready scores are ACT Composite = 21 or SAT Evidence-Based Reading and Writing + Mathematics = 1070. Percentage taken from all grade 12 students, including those not tested. The district target is 40% of grade 12 students meeting the college-ready criterion.
Percentage tested	Percentage of grade 12 students who have taken one or both of ACT or SAT at any time during high school.
Average score (single test)	Average score among grade 12 students who have tested. Range for combined SAT Mathematics and SAT Evidence-Based Reading and Writing section scores is 400-1600. Range for ACT Composite is 1-36. Current district targets are 1070 and 21.
Percentage with college- ready scores (single test)	Percentage of all grade 12 students (including those not tested) who have met the targets of 1070 (SAT Evidence-Based Reading and Writing + Mathematics) or 21 (ACT Composite).
Percentage tested (single test)	Percentage of grade 12 students who have taken the test.
Advanced Placement (AP)	
Number of exams	Number of exams taken by all students in any grade. Students may take more than one exam.
Percentage of exams with qualified scores	Percentage of all exams with scores at the "qualified" level or higher (3-5 on 1-5 scale). Students may have more than one exam with a qualified score. The target is 31% of exams with a qualified score or higher.
Average exam score	Average score on exams taken by all students in any grade. Students may take more than one exam.
Percentage enrolled in an AP course	Percentage of grade 11-12 students enrolled in at least one AP course.
Percentage tested on any exam (among AP enrollees)	Percentage of grade 11-12 students enrolled in any AP course and taking the appropriate exam.

Percentage of grade 11-12 students enrolled in any AP course and earning a qualifed score on the appropriate exam.
